

When you need precise,
cold facts... constantly

SELF-LEARNING, COLD-END INSPECTION SYSTEMS

We don't have our heads in the clouds when it comes to the quality of glass, we have real, practical solutions: self-learning inspection systems with sensors providing precise measurements even faster. Like everything else, our cold end inspection is backed by top service, support and training; and our constant research is working towards the **Smart Factory** – watch this space.

Working for a brighter future...

WITH TIAMA HOT-END MONITORING

Receiving information faster is possible and easier with our Hot-End Monitoring-Sensors. Our system is also more cost effective because it is modular: you choose only what you need. Whatever your choice, it will improve your knowledge of the process and it is backed by our service, support and training, along with constant research. So, watch this space if you are preparing for the **Smart Factory**.

Yes, there is intelligence out there, lots of it...

REAL-TIME INTELLIGENT DATA ACCESS

By receiving open information from one single, smart database in real-time, you're even more in touch with all your processes – no matter where you are – which means greater efficiency and productivity, less defects and losses. In fact, it's like having your own personal satellite backed by our service, support and training. So, watch this space if you are gearing up for **Manufacturing Intelligence**.

among the 1,000,000,000,000,000,000,000,000 others out there

TRACEABILITY WITH UNIQUE BOTTLE IDENTIFICATION

It's like DNA for glass: an engraved data matrix code with which one can trace any bottle to its point of origin. The hot and cold-end data from all the sensors are assembled in this unique code making it a powerful tool, essential for "big" analysis. Backed by our service, support and training, it's one of the many ways we're helping you to get ready for **Big Data** in the **Smart Factory**.

When it comes to service, the sky is **not** the limit...

GLOBAL SUPPORT TO MAKE THE MOST OF YOUR INVESTMENT

We're not in space (yet) but the Tiama team is there for you with more than 70 international experts, offering the best in service, support and training backup. We offer local customer support, on-line spare parts catalogs, a 24/7 hotline and remote troubleshooting. Our team also provides excellent training programs which help you make the most of your investment and help you identify problems before they happen. So, watch this space to see how our service will help you prepare for **Manufacturing Intelligence**.
