

Dear Valued Glass Customer,

Tiama and Somex are pleased to announce their strategic and exclusive partnership effective on March 1<sup>st</sup>, 2022.

Tiama as a trusted expert and global provider of real-time data and quality controls for the glass packaging industry.

Somex as an Irish company created in 2000 which has developed a strong portfolio of testing instruments for manufacturers of Glass containers with a complementarity with Tiama range of products.

Both companies' technologies when combined will allow us to deliver a comprehensive portfolio of testing instruments to our customers and become a more valuable partner to assist you grow your business.

As the industry moves towards increased automation, both Tiama & Somex are well positioned to deliver a comprehensive solution.

While continuing to operate independently, Somex will incorporate the full benefits of Tiama sales force & technical service at worldwide level.

Tiama & Somex greatly value each of our customers' business and are fully committed, together with our management teams, to ensuring business continuity for you into the future and to develop new projects together.

Sincerely,

Signature TIAMA
